

# ALPHAYUE

## FOR TOMORROW'S SOLOISTS

- Game changing
- Brilliant overtones with a full and dark fundamental sound
- Immediate bow response
- Beautiful projection and power
- Gentle feeling in your fingers and left hand
- Extremely sweat-proof
- Short break-in time, excellent tuning stability and lifespan

## BREAKTHROUGH DESIGN

ALPHAYUE is a breakthrough string for students of all levels – the number one choice for aspiring artists! ALPHAYUE delights with sound qualities never before available at this price point. A high-tech synthetic core married with renowned Thomastik-Infeld quality delivers a rich, sophisticated sound palette impossible to achieve with steel core strings.

## THE ESSENCE OF ALPHAYUE

The experience of joy in playing is the essence of ALPHAYUE. The advanced synthetic core offers an unparalleled sound quality and a gentle feeling on your fingertips. The strings quickly perk up to their full potential and are instantly responsive.

ALPHAYUE strings improve the sound of even the most basic student instruments, thus the sound of the orchestra as well.

## DON'T SWEAT IT

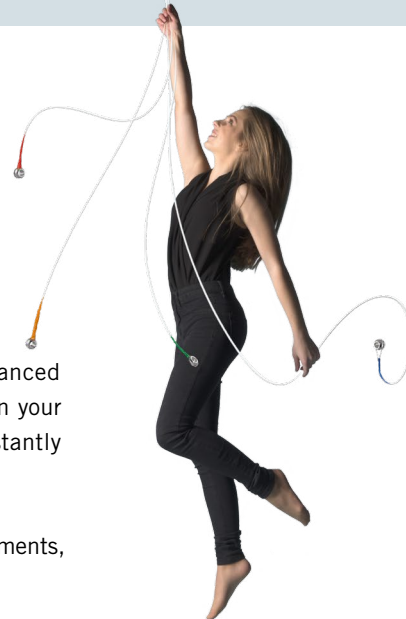

Over 17 years ago Thomastik-Infeld introduced the use of Monel in string development. Monel is a natural alloy, impervious to perspiration and suited for artists with a nickel allergy. Unaffected by temperature and humidity changes, these strings live a long and powerful life. ALPHAYUE G- and C-strings are Monel wound.

## STRESS FREE

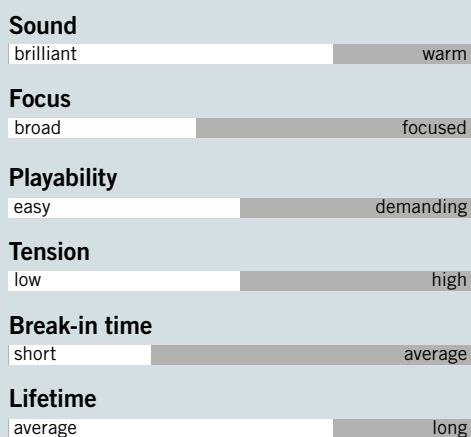

With its lower tension, ALPHAYUE strings are more left-hand friendly and don't stress your instrument as much as other strings.

## INSTRUMENTS, THEY LOVE

With brilliant overtones and a full and dark foundation, ALPHAYUE is suitable for the full range of instruments, from dark to bright.

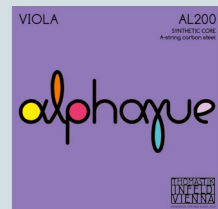

## CHARACTERISTIC

HANDMADE STRINGS SINCE 1919
